PHILIPS

ZOOM!

Whitening

Zoom! Delivered, professional **whitening solutions delivered straight to patients' homes**

A simple way to whiten patients' teeth **at home.**

How Zoom! Delivered works

Philips Zoom! delivered is a program that ships Zoom! DayWhite or NiteWhite whitening gels and custom trays directly to patients' homes. Just scan their oral impression, upload to our Philips lab, enter their Zoom! Delivered order on the Philips Dental ProShop and within 10 business days your patients will receive their custom trays and gels. It's that easy!

What it includes

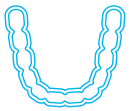
Every Zoom! Delivered package comes with six whitening syringes (providing 18 days' worth of whitening gel), two custom trays and a user manual.

What it costs

The per-patient cost for Zoom! Delivered is $109.99. But since you don't have to purchase inventory ahead of time, there's no overhead. You only pay for Zoom! Delivered after a patient pays for the service, guaranteeing an immediate profit to your practice!

How to get started

1. **Schedule an appointment with your Philips Zoom! representative to connect your intraoral scanner with our Philips lab.**



2. **Take intraoral scans of your patients.**

3. **Upload your patients' scans to our Philips lab and place your order on the Philips Dental ProShop.**

4. **We will produce your patients' custom trays and ship them directly to patients' homes together with your selection of DayWhite or NiteWhite whitening gel.**

5. **Your patients receive their custom take-home whitening kit within 10 business days, containing 18 days' worth of professional whitening treatments.**

Contact your Philips sales representative or call (800) 422-9448 to schedule your appointment today.
